Location: Brussel

Category: other-general

Position description

Job title

Manager - Digital Transformation & Strategy

Function

Advisory - Senior Advisor

Roles & Responsibilities

About KPMG Belgium: At KPMG Belgium, we're at the forefront of driving digital transformation in the public sector. We're looking for an experienced and innovative Manager in Digital Transformation & Strategy to join our dynamic team and lead transformative projects of medium to large sizes.

Roles & Responsibilities: As the Manager in Digital Transformation & Strategy, you will play a pivotal role in guiding our clients through the digital revolution.

Your responsibilities include:

Collaborating with functional teams, technology experts, and sector specialists to co-develop end-to-end digital solutions tailored to clients' needs.

Leading and coaching project teams to deliver transformation projects/programs effectively.

Shaping vision on Digital & IT Strategy & Transformation (evaluating as-is, identifying gaps, shaping plans, guiding transformation journey)

Evaluating & designing Digital & IT TOM (processes, people, service delivery model,

governance)

Interacting with C-levels + Acting as C-level sounding board

Identifying business opportunities and supporting go-to-market activities to further drive growth.

Cultivating and expanding the internal digital transformation community within the public sector through training, coaching, and recruitment efforts.

Serving as a subject matter expert in digital transformation for the public sector and a reference point for our consultants.

Location

Zaventem HQ

Skills & Qualifications

Skills & Qualifications: In addition to a Master's degree in economics, informatics or engineering or similar field, you should possess:

At least 10 years of relevant experience in the public sector, demonstrating a strong understanding of digital transformation.

A natural inclination for innovation, entrepreneurship, and agility in dynamic environments.

Excellent change management, communication, and storytelling skills, with a knack for co-creating optimal technology solutions with clients.

Flexibility and motivation to work on diverse projects, with fluency in Dutch, French, and English.

Extensive experience in the Belgian public sector and a proven ability to thrive in agile and changing environments.

Cobit, ITIL, TOGAF certifications are an asset.

Knowledge on Public procurement

We offer

Join Us: If you're ready to lead transformative change and shape the future of digital strategy and transformation in the public sector, join us at KPMG Belgium and be part of a

team that's making a real difference.
