Job title

Manager/Sr. Advisor: Procurement & Supply Chain

Function

Advisory - Manager

Roles & Responsibilities

As our team continues to expand, we are looking for a Manager/ Sr. Advisor within the Procurement & Supply Chain Team to strengthen our growing and enthusiastic team.

Key activities of the team include:

Analyze the client's supply chain to identify current inefficiencies, challenges, and opportunities for improvement

Evaluate and assess the client's current operating model to define and recommend a target operating model that aligns with their business goals and objectives

Develop and implement supply chain planning software solutions, processes, and methodologies to improve overall performance and drive cost-efficiency

Advise clients on Supply Chain planning processes (S&OE, S&OP, IBP) and recommend improvements as per industry standards

Advise clients on best practices, change management, and project management during digital transformation initiatives

Build strong client relationships and collaborate with cross-functional teams to deliver high-quality solutions and results

Prepare and conduct workshops, training sessions, presentations, and other educational materials.

Stay abreast of the latest trends, technologies, and best practices in supply chain planning and advise clients accordingly.

Type of projects:

Implementation of Supply Chain planning processes

Implementation of Supply Chain planning tools

Implementation of Supply Chain Collaboration & Control Towers for end-to-end Supply Chain transparency

Primary tasks (can) include (depending on projects):

Maturity assessment of current operating models

Design of target operating models

Analysis of received documentation such as data, policies and process flows

Leading design and implementation workshops with clients

Defining client and system documentation

Preparation and support during testing cycles

Your role will be highly varied and involves working in a supportive, young and dynamic team. The range of clients, and the projects you could work on, offers continuous challenge and a constantly shifting workload.

You'll be in regular contact with clients, requiring travel to lots of client sites on a national and sometimes international basis.
