## Manufacturing Consultant

management consulting, supply chain & operations, some experience, consultant Belgium share on

You're a **dynamic** and motivated business professional with a passion for manufacturing processes. You're a **team player** who likes taking up an active role in **improvement** projects. You thrive in both small and large **project teams**.

You are **energized** by interactive workshops with C-level executives, middle management and shopfloor operators. You're quick to understand business **challenges** and propose strategic (and technological) **solutions** to help improve **manufacturing** processes.

You're **flexible** and can handle the **uncertainty** your customers face in their **business transformation** journeys – you're there to guide them into the right direction!

**Apply for Manufacturing Consultant!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

**Who are we?**

At delaware, we have a dedicated **Management Consulting** team that helps companies to

**transform beyond technology** . We operate across industries and tackle the needs and challenges of different stakeholders, helping them to transform their function, their team, their strategy and ultimately, their business model. We leverage our **expertise** to improve business **performance** and grow world-class capabilities.

As a management consultant specialized in **manufacturing** , you will be joining our Manufacturing team, that advises companies on how to optimize their production environment and shopfloor activities. You will for example help companies to **automate** their factory using robotics or other technology. This is a **growing practice** within delaware, with lots of opportunities for you to shine in projects!

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège and Wavre** , but we also spend a lot of time working together with our customers on-site.
