

MECHANICAL ENGINEER (Automotive/Energy)

[Apply Now](#)

Company: TMC

Location: Belgium

Category: architecture-and-engineering

| YOUR CHALLENGES?

As a Mechanical Engineer, you play a key role in project planning and execution. Your responsibilities include diverse engineering tasks such as mechanical design, 3D design, and detailed drawing to meet client expectations. You contribute to the development of mechanical components, machines, and test equipment, delivering prototypes and validating results through test procedures. Collaborating with your team, you provide valuable insights during product manufacturing and actively participate in progress meetings to strategize for the upcoming weeks.

| WHAT DO WE EXPECT FROM YOU?

You have a , Electromechanics or similar field.

You have at least first experience working on mechanical projects.

You have a good knowledge of CAD program such as CatiaV5, Solidworks, Creo or Autocad.

You are fluent in English.

You have a strong analytical, result driven and problem solving mindset.

| WHAT CAN YOU EXPECT FROM TMC?

TMC is an international high-tech consultancy company that brings expertise to their clients in order to support them with the realization of their technological challenges. As such, TMC is operating as an expert center at the disposition of its clients and we help them to be more competitive in an ever more global and faster changing technological world.

At TMC we believe that people are the driving force behind technological innovation. That is why we want to create the best possible conditions for tech talents to thrive in. We offer you a challenging and stimulating work environment in which you can be the director of your own career.

As an Employeneur you are part of our TMC family. Next to our outstanding technical expertise, fun and engagement are meaningful parts of our culture.

| WHY CHOOSE FOR EMPLOYENEURSHIP?

We are truly unique thanks to our Employeneurship model which is a true innovation for the High Technology consulting business. It is the business relationship of the 21st century for high skilled technical professionals. It is built around 5 main pillars:

You will have a permanent employment contract, offering you stability and security

You will get to know your market value and have a share in the profit your work generates thanks to the individual profit sharing

We will support you with a one-on-one coaching and trainings designed to help you develop your entrepreneurial skills

The competence cells structure provides you with a strong meaningful and relevant network

The entrepreneurial lab: a playground for new ideas and a potential launching for start-ups

TMC is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
