## Medior/senior OsiSoft Pi Engineer

### MED/SENIOR OSISOFT PI ENGINEER

Are you fully immersed in the world of OSIsoft PI and ready for a new adventure as an Engineer? As an experienced OSIsoft PI Engineer, you will collaborate with our clients to turn their desires into reality. Together with your team, you will be the driving force behind the success of each project.

#### Responsibilities:

Some of your responsibilities:

You are responsible for installing, configuring, upgrading, migrating, and commissioning PI systems.

Additionally, you lead in the design and architecture, including the renewal and drafting of design specifications.

You are involved throughout the entire project cycle, from business development and conceptual design to execution, implementation, and aftercare.

You also ensure seamless integration with other business applications (such as MES).

You perform validation and review of installation and operational qualification documents

(IOQ).

Furthermore, you provide support and guidance to junior engineers.

### **Who are we?**

At PA Solutions, you become part of a fast-growing company that is the ideal partner for tailor-made automation solutions in various sectors such as pharmaceuticals, chemistry, life sciences, and more. Here, we explore innovative paths to success together with our clients!

### **Requirements for this position:**

#### **Hard Skills:**

You have a bachelor's degree in computer science or engineering.

You have extensive OSIsoft PI implementation experience. In addition to the well-known PI DA, AF, and various interface setups and configurations, experience with PI DA migrations, PI Batch to EF migrations, and the PI AF SQL backend are highly desirable.

PI Notifications, Analytics, RtReports, and PI Vision are not unfamiliar to you.

#### **Soft Skills:**

You have good communication skills and are able to collaborate in English with colleagues from around the world.

You have technical knowledge and are very eager to learn.

You keep a cool head in stressful situations.

#### **Location:**

Our offices in Belgium are located in Melsele, Oevel, and Antwerp-Berchem. Our client itself is situated in Geel, where you will be part of a dynamic and innovative team.

#### **What do we offer you?**

We're on a fast track, expanding globally through strategic acquisitions and are now seeking talent ready to join this train of continuous growth.

That's why we offer:

**Exclusive Compensation Package** We offer a competitive salary, complemented with fringe benefits.

**Flexible Working hours** We provide flexible hours and the option for remote work, tailored to your professional lifestyle.

**Sustainable Mobility Solutions:** You'll receive a fully electric company car, complete with a European charging pass and the option for a home charging station. Additionally, there are charging facilities available at our offices.

**Continuous Professional Development** Broaden your horizons with ongoing personal and professional growth opportunities, both horizontally and vertically.

**Dynamic Team Environment:** Become part of a team where collaboration and team spirit are celebrated through regular team-building activities.

### **Convinced to start in our team?**

Send us (Tina and Pauline) your CV with a brief motivation via [jobs.be@pa-ats.com](mailto:jobs.be@pa-ats.com) , and we'll get in touch with you very soon!

We welcome and encourage diversity in the workplace. We thank all applicants for their interest, but only those selected for an interview will be contacted.
