

MES Engineer

[Apply Now](#)

Company: INDEFF

Location: Belgium

Category: computer-and-mathematical

About the job

As an MES Engineer for INDEFF, you will be responsible for the **initial analysis, solution design, on-site application and technical support of MES implementations** . An MES Engineer's responsibilities also include system monitoring, troubleshooting, problem resolution, development and change management. The position requires strong project management skills and coordination with the customer, as well as with a global support team. Junior engineers typically work under the guidance of senior team members.

About You

Our ideal MES Engineer has:

a degree in Engineering/Computer Science/Integrated Manufacturing disciplines

a minimum of 2 years' experience in the Industrial Automation or Information Technology industry

experience in a technical design & delivery environment

strong skills in programming tools, like C#.NET, ASP.NET, VB.NET, and Microsoft SQL and Reporting Services

experience with Wonderware or other MES software packages

a genuine willingness to learn and travel
