## MES Solution Architect

management consulting, supply chain & operations, lot of experience, consultant Belgium share on

You're a **dynamic** and motivated business professional with a passion for manufacturing processes. You're a **team player** who likes taking up an active role in **improvement** projects. You thrive in both small and large **project teams**.

You are **energized** by interactive workshops with C-level executives, middle management and shopfloor operators. You're quick to understand business **challenges** and propose strategic (and technological) **solutions** to help improve **manufacturing** processes.

You're **flexible** and can handle the **uncertainty** your customers face in their **business transformation** journeys – you're there to guide them into the right direction!

**Apply for MES Solution Architect!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

**Who are we?**

At Delaware, we have a dedicated **Management Consulting** team that helps companies to

**transform beyond technology** . We operate across industries and tackle the needs and challenges of different stakeholders, helping them to transform their function, their team, their strategy and ultimately, their business model. We leverage our **expertise** to improve business **performance** and grow world-class capabilities.

As an MES solution architect, you will be joining our Manufacturing team, that advises companies on how to optimize their production environment and shopfloor activities. You will for example help companies to **automate** their factory using robotics or other technology. This is a **growing practice** within delaware, with lots of opportunities for you to shine in projects!

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège and Wavre** , but we also spend a lot of time working together with our customers on-site.
