Microsoft Dynamics Technical Consultant

Microsoft, software development, some experience, developer Belgium share on
We probably don't need to tell you this, but when it comes to IT, things are moving fast. At delaware, we think that the only correct response to this is to keep up the pace. That's exactly why we wholeheartedly embrace the latest novelties on the Microsoft Dynamics platform. We aren't **Microsoft Gold Partner** for nothing!

The unique combination of the former **Dynamics AX** and **CRM** with **Azure cloud technology**, **IoT**, **Cortana Intelligence**, **PowerBI**, **PowerApps**, **Common Data Model** and **Microsoft Flow** gives us (and our customers) a more exciting playing field than ever before.

Are you eager to get onto the playing field, too? Then maybe you're the Microsoft Dynamics Technical Consultant we're looking for!

Apply for Microsoft Dynamics Technical Consultant!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

What will you be doing as a Microsoft Dynamics Technical Consultant?

As a Microsoft Dynamics Technical Consultant, you'll have quite the to-do list:

Depending on your experience, you will either **lead** or be an active member of a project team.

One thing is for certain: you'll be involved in the technical aspects of our projects, every step along the way.

Our team develops the **architecture design**, programs, tests and ultimately delivers everything. We'd hate to leave with the job half done!

You should know that our projects are very varied and diverse: they include a **mix of greenfield implementations and transition projects** .

As a consultant, your job is always about more than technology: it's essential that you enjoy customer contact and proactively suggest ideas for possible extra functionalities and technological solutions.

Besides your project role, you will actively participate in delaware's wide range of **innovation initiatives** (incl. cloud, Internet of Things, ...), giving you the chance to work with various technological platforms.

Technology never stands still, and so neither do you. You'll keep close tabs on the Microsoft Dynamics and general IT evolutions.

Your growth prospects depend in part on your personal objectives; we're happy to discuss the opportunities with you so that, together, we can map out a career path which is aligned with your goals and expectations.

delaware has its offices in Gent, Antwerpen, Wavre, Kortrijk and Lummen, but you will often be working onsite at our customers, wherever they are in Belgium. If that's something you're willing to do, you'll fit right in! You can work on local, national and international implementations, in line with your own ambitions.
