Company: KPMG

Location: Brussel

Category: business-and-financial-operations

Position description

Job title

Microsoft Dynamics Functional Advisor - D365 Supply Chain Management

Function

Advisory - Manager

Roles & Responsibilities

KPMG helps their customers to increase value brought through technology enabled business transformations. By doing so, we reduce risks and uncertainty with the support of a strong multi-disciplinary team of strategy, management, and technology consultants. KPMG is a leading (global) system integrator with its unique Powered Enterprise methodology. We leverage our product and integration knowledge, services, and sector expertise, within the national and international KPMG network to help you stay competitive.

Enterprise solutions focuses on the implementation of digital solutions, as part of technology enabled transformations, using multiple platforms.

We offer the following services to our customers:

ERP/CRM strategy advice and blueprinting services

Implementing and leading Dynamics 365 CE & Finance and Operations projects and programs

Implementing power platform as automation enabler

Business partnering and Quality Assurance advise

Together with our colleagues from the Digital Enablement business unit we implement the full Microsoft eco system with D365 and the power platform as a core element of digital transformation.

Your role:

As a (senior) functional advisor in Dynamics 365 Supply Chain management, you will be responsible for the process design, implementation, and testing of the Dynamics 365 Supply Chain Management solution (Inventory management, Warehouse management, Transportation management, Production control, Procurement...).

You will guide our customers in how they should transform their organization so that it is more performant by leveraging the Microsoft Dynamics 365 platform to its full extent.

You will be supported by business consultant(s) who have a strong focus on process knowledge whilst your focus will be on the Microsoft Dynamics 365 solution. Furthermore, you can count on the support of the solution architect(s) and a technical team for integration, custom development, migration, build and release activities.

Our customers rely on KPMG to take ownership of key positions that determine the success or failure of the project. This requires IT knowledge as well as soft skills including effective communication, leadership, building customer relations, and a strong dedication to quality.

Your activities will comprise,

Guide customers in the transformation of their operations by organizing and executing workshops

Execute FIT/GAP workshops and create the to-be process designs using the APQC process model aligned with the Dynamics 365 Supply Chain management capabilities

Create the functional designs and provide information towards the technical team for any Gaps (interfaces, custom development ...) that should be solved

Configuration of the solution

Write test scenarios and execute functional testing

Assist in integration testing

Support customers during UAT

Create training material and conduct training of customers

Location

Zaventem HQ

Skills & Qualifications

You have a good understanding of supply chain operations

A good understanding of manufacturing processes is considered an advantage

You have a minimum of 3 years of hands-on experience, and you have been involved in multiple ERP implementation projects as a functional consultant

You can work independently, as well as in project teams and take ownership and responsibility

You keep developing your coaching skills by working closely together with other colleagues

You are fluent in English; knowledge of Dutch or French is preferred

You are a certified Microsoft Dynamics 365 Supply Chain Management Functional Consultant (MB-330 and/or MB-320) or are willing to achieve this certification soon

Certification in Prince2, PMP or other project management tracks is considered an advantage

Ready to continuously invest time to keep up to date with the latest capabilities, functions and features in the Microsoft Dynamics 365 supply chain solution and act as an advocate in spreading this knowledge within the team

We offer

At KPMG, we genuinely believe our people are the heartbeat to our success. We commit ourselves to encouraging true team spirit and creating an international and dynamic working environment in which each can pursue the knowledge needed to boost their career. As Top

Employer, we highly invest in our people's development of soft skills and technical know-how. We will make sure we develop an individual career and development plan to match your ambitions with the ambitions of KPMG to ensure mutual synergies and long-term involvement and commitment from both parties.
