

## Model Based Design Ingenieur

[Apply Now](#)

Company: Nalys

Location: Belgium

Category: architecture-and-engineering

Nalys is a consulting group dedicated to high technology projects.

Thanks to our strong corporate values and management, we are one of the fastest growing actors in engineering consultancy.

We gather great minds & challenge boundaries to help our customers developing stunning products. And we love doing it.

Discover how we can give a sense to your passion on

### **About the job**

Given your experience, you will be responsible for the development and optimization of the control strategy. Your tasks may include:

Development and addition of new functionalities on the specific hardware

Development of different simulations of the product on project team's request or due to customer needs

Role in the Model Based Design processes (modeling, validation, prototyping, calibration & testing)

### **About you**

You have a university diploma in the field of mechatronics, electronics or similar

You have a very good knowledge of Matlab/Simulink and are familiar with modelling and performing simulations

You have 3 years of experience in a similar controls environment

You have basic knowledge of an embedded system environment (electronics, C programming)

You are fluent in English and Dutch or French

You have strong communication skills and are not afraid of new challenges

### **About us**

Nalys is a people company. We will give you the opportunity to challenge yourself while doing something you love.

So whether you are a creative, a dreamer or an achiever, you can find a way to do something you truly enjoy.

And because we want our company values to be more than words, we invest 7% of our annual revenue to drive innovation,

develop your expertise, train your brains and give you time & tools to think big.
