Network engineer in industrial IT infrastructure (GHENT)

Apply Now

Company: TMC

Location: Belgium

Category: computer-and-mathematical

After a training period, during which you gain insight into our installations, our process, and our IT infrastructure, you will:

Ensure the continuity, growth, and innovation of the network infrastructure, from design to commissioning,

Analyze questions from internal customers and translate them into technical assignments for your colleagues,

Assess proactively the needs of internal customers and help them to provide infrastructure for this,

Monitoring the quality of the service,

Be involved in numerous projects and autonomously lead a project with different employees,

Play a role in determining the global architecture of the Network Infrastructure.

| **What do we expect from you?**

You have a master's degree in one of the following disciplines: engineering sciences, computer sciences, industrial sciences with a specialization in ICT, electrical engineering, or electronics.

You are interested in the latest IT technologies and Network Infrastructure

You have strong organizational skills, you are enterprising, and have the capabilities and the ambition to lead a project team.

You are social, communicative and able to integrate smoothly into new and existing teams.

You work well with all levels within the company, from worker to employee Management

You are permanently open to new knowledge and ideas.

| **What can you expect from TMC?**

TMC is an international high-tech consultancy company that brings expertise to its clients in order to support them with the realization of their technological challenges. As such, TMC operates as an expert center at the disposition of its clients, and we help them to be more competitive in an ever more global and faster-changing technological world.

At TMC we believe that people are the driving force behind technological innovation. That is why we want to create the best possible conditions for tech talents to thrive in. We offer you a challenging and stimulating work environment in which you can be the director of your own career.

As an Employeneur you are part of our TMC family. Next to our outstanding technical expertise, fun and engagement are meaningful parts of our culture.

| **Why choose for Employeneurship?**

We are truly unique thanks to our Employeneurship model which is a true innovation for the High Technology consulting business. It is the business relationship of the 21st century for highly skilled technical professionals. It is built around 5 main pillars:

You will have a permanent employment contract, offering you stability and security

You will get to know your market value and have a share in the profit your work generates thanks to the individual profit sharing

We will support you with one-on-one coaching and training designed to help you develop your entrepreneurial skills

The competence cells structure provides you with a strong meaningful and relevant network

The entrepreneurial lab: a playground for new ideas and a potential launching for start-ups

TMC is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
