

NewGen Engineer

[Apply Now](#)

Company: avenga

Location: Antwerpen

Category: computer-and-mathematical

What you bring along:

4+ years of hands-on experience with Newgen suite (iBPS4.0 or 5.0, Omnidocs 10.0 or 11.0, BAM, OmniExtract, OmniOMS, OmniScan);

Ability to provide quick support for monitoring, analyzing, and debugging the Newgen prod solution and related integrations;

Solid development experience with Java;

Strong Java development experience using NewGen API's;

Ability to write complex SQL queries;

English – Upper-intermediate or higher.

This is your mission:

Implementation of neobank NewGen API;

Document necessary design and analysis work, possibly including project postmortem documentation and metric collection;

Work closely with business analysts, project managers, and other stakeholders to understand business goals and translate them into technical requirements;

Provide guidance to development teams and create documentation to ensure that the architectural principles are understood and followed;

Conduct technical peer review.

Your benefits:

Our employees get regular performance and salary reviews;

Everyone at Avenga is subject to professional growth via our mentorship program;

The company provides extended training and certification opportunities;

We foster professional freedom by offering free-of-charge English and Spanish courses from A1 to C2;

Avenga cares for its employees, you will be fully supported by our HR Partners;

We offer an attractive Referral bonus program;

At our team, everyone carefully tracks their own work-life balance, for this reason, we provide 21 days per year of unpaid time offs.
