

Product Manager - Connectivity

[Apply Now](#)

Company: Telenet

Location: Belgium

Category: other-general

At Telenet, we always want to be one step ahead in a digital world. If anything, COVID has made the need for our products and how we deliver them, even clearer. Staying connected was vital for everyone to work, learn, live and relax. A lifeline for people and businesses alike. We are committed to live up to our responsibility, both to our customers, our employees and to society as a whole. Using our technology to create more sustainable products and relationships. Moving beyond fun and convenience to become vital and meaningful.

Working in the Product team

As a **Product Manager Connectivity**, you design & manage customer value propositions, products and features that answer our customer's needs and enable us to continue to lead via superior connectivity solutions.

In this role, you will focus on managing the product roadmap of our broadband, mobile, smart home and digital technology products. This includes new technologies like Wifi 7, Fiber, eSIM, etc. Within a multidisciplinary squad of engineers, IT managers and marketers, your goal is to create an ecosystem of connectivity solutions that delivers seamless, highly performant, and reliable connectivity for our residential and business customers.

Your tasks as our Product Manager

You manage the full product lifecycle of your connectivity product line.

Based on research & existing data, you build extensive knowledge and deep understanding of customer needs in the connectivity area, and you translate this into relevant insights and

business opportunities

You scan and analyze the market for emerging technologies and perform assessments of what technologies could be useful for Telenet and/ or its customers.

You work closely with other connectivity team members and our global partners to align the product roadmap.

You manage the product lifecycle of the solutions within your portfolio.

You monitor customer satisfaction of our connectivity solutions, and initiate projects to improve the connectivity experience and bring innovation to the customer.

You act as the product expert and internal/external product evangelist

You work closely together with Engineering, IT, market research and digital/ app teams to assure timely and high-quality delivery of your projects.

You work on business cases for your initiatives together with Go-to-market and Finance.

You keep in touch with the customer through various channels (research, sales channels, customer care, field technicians, web, ...).

You anticipate competitive changes and market trends and translate this into project proposals

What we have to offer

You will be joining a company that invests fully in you, adapting your work environment optimally to what you need. This will allow you to develop while taking care of your work-life balance. What else will we throw into the fray?

You are given every opportunity to further develop your expertise. We stimulate your personal growth with internal mobility opportunities and extensive learning possibilities, but we also give you the chance to press the pause button after a while or to go in a completely different direction.

A varied job in which you produce tangible results and make your mark.

A competitive gross monthly salary that we complement with a host of fringe benefits (meal vouchers, cell phone, company car, hospitalization insurance, telephone subscription,

discounts on Telenet products, home working policy, ...).

The fine company of colleagues who are as passionate as you.

Our new Product Manager

You have more than 5 years experience in connectivity and/or digital solutions is a plus

You have relevant product management experience, marketing experience or engineering experience.

You are passionate about technology, telecom and media.

You are a real team player, willing to work in an agile environment, who also gets results by his/her own efforts

You take ownership of your projects and can act as a 'go-to' person

You combine strong analytical skills with a creative and positive mind

You are a strong and convincing communicator

Languages: Native NL or FR speaker, with a solid knowledge of ENG, both spoken and written

Experience in connectivity and/or digital solutions is a plus
