Program Director (Belgium)

The Role

At the European Research Institute, my client are looking for a 3D integration program director.

You will be joining one the worlds most innovative brands, working with the best colleagues from across the globe.

The responsibilities include:

- * Participate in key projects in AI/CPU, network and other fields.
- * Produce a competitive 3D engineering architecture according to the application scenarios and needs of the product.
- * Decompose the engineering structure into implementable engineering plans, identify and perform 3D risk management, and finally transform the technology Idea into commercial success.
- * Combined with the industry's best 3D engineering practice and industry analysis, carry out innovative research and industry-leading exchange of cutting-edge technology.

Required Experience:

* More than 10 years of work experience in related companies in the industry, technical team leader or senior expert.

* Having industry/vendor background, familiar with process, and has many successful 3D experience.

* Good teamwork ability, good communication skills.

* Excellent analytical skills
