

Project engineer

[Apply Now](#)

Company: Pauwels Transformers

Location: Belgium

Category: computer-and-mathematical

The project engineer is the point of contact for all technically related questions for the customers of your designated business segment and portfolio as well as for everyone within the Pauwels organization.

Function

You read and analyze the incoming specifications from a technical point of view. You analyze the technical specifications of the customer.

You participate in an internal or external kick-off meeting of each project either at Pauwels or at the customer's site

You ensure that the engineering department optimizes the transformer design in terms of technical feasibility and cost price, in line with the specifications and expectations of the customer.

You also provide support to the engineers of the study department with technical questions.

You are responsible for the technical information flow to the customer.

You are responsible for the design review of each of your projects.

You follow up the end-product during production and you solve any technical problems.

Profile

Master's degree in engineering sciences (preferably electromechanics)

Minimum 3 years of experience in a similar position

Knowledge of transformers is a plus

Knowledge of Dutch and English is a must (or willing to learn it)

Knowledge of German or French is a plus

Solution-oriented, communicative, analytical and taking initiative are competencies that are required.

In order to realize our growth goals we aim to invest in talented people more than ever before. If you are a talented professional and you have a real drive to achieve, you will get the opportunity to develop your skills and build your career. This job position will expose the successful applicant to a wide variety of business development aspects by cooperating with renowned companies, each in their respective business area. You will be able to enjoy a competitive and attractive salary package and excellent benefits. At Pauwels we strive to motivate and reward our employees to encourage them to help the organization grow.
