[Your profile](#)

[Our offer](#)

Develop operational plans in the most optimal and economic manner, considering various preconditions.

Act as the primary point of contact for clients, showcasing strong communication skills. Maintain regular contact with clients in the UK, NL, BE and FR.

Conduct regular site visits to ensure operational efficiency and address any on-site challenges.

Work closely with the operations team, reporting directly to the DBM Operations manager.

Support the operations Manager in implementing continuous cost control measures and optimizing fleet and business processes.

Engineering degree or experience in a related field.

Genuine interest in the world of DEME Building Materials.

Excellent communication skills.

Willingness to work either at our headquarters in Zwijndrecht, Belgium, or at our office in Vlissingen.

Interest in supply chain and planning.

Effective collaboration in a team, ensuring seamless integration between stakeholders.

Fluency in Dutch and English; French proficiency is a plus.

An extensive mobility program for a healthy work-life balance.

A permanent training track which allows you to develop yourself personally and professionally.

A stimulating, innovative workplace with numerous growth opportunities.

A people-oriented environment with an interactive health program and a focus on employee wellbeing.

### **Geotechnical Engineer**

As a Geotechnical Engineer, you will focus on a wide variety of challenges supporting our cable installation business unit on offshore windfarms. Your challenges will extend from multi-disciplinary cable route engineering to cable burial studies and managing complex soil datasets. You will be responsible for sound and expert output to support our project and tender teams or work on one of our many R&D projects.

The engineering department in Breda consists of approximately 30 employees. You will work in an international team of 8 Hydraulic and Geotechnical engineers. As a geotechnical engineer

you will support our commercial and project teams by providing, amongst other things, expert advice on cable protection strategies and cable route design. Together with the team, you will help our society transition to a sustainable future.
