

Project Engineer E&I

[Apply Now](#)

Company: ATS Automation

Location: Antwerp

Category: computer-and-mathematical

Job Description

Would you like to play a key role in innovative electrical designs and automation as an Electrical & Instrumentation Engineer at PA Solutions? Then we have the perfect challenge for you!

You will be the driving force behind creative electrical designs using Eplan and automation with Cogineer.

It's up to you to ensure correct installations by performing cable and protection calculations using CANECO.

Thanks to your expertise in instrumentation, you'll be able to collect valuable data and measure and control processes. You will be responsible for drafting accurate specifications for instrumentation, such as flow, level, temperature, and pressure.

Additionally, you will ensure that everything is correctly connected and the signal is transferred to and from the correct SPLC or DCS, including cabling and wiring.

You will also be involved in regulating product heating, powering and controlling motors, and setting up switch rooms.

Safety is our top priority, especially in Seveso companies, where you will be involved in process safety and SIFs.

Hard & Soft Skills

You have a bachelor's or master's degree in Electromechanical Engineering

You have a strong interest in everything related to E&I and automation

During your studies, you have already encountered various types of instruments and associated measurement principles

From your education, you know how a PLC with I/O cards is structured

You have a basic knowledge of the AREI AutoCad or Eplan is not completely unfamiliar to you

You have technical insight and are very eager to learn

You can think in a structured and logical manner while keeping an overview

Our Offer

We are rapidly expanding worldwide through smart acquisitions and are looking for talent eager to jump on this train of continuous expansion. Therefore, we offer:

Exclusive Compensation Package Enjoy a competitive salary, enriched with fringe benefits, including comprehensive insurances and meal vouchers.

Flexible Working Schedules We offer flexible working hours and the option for remote working, tailored to your professional lifestyle.

Sustainable Mobility Solutions: You'll receive a fully electric company car, with a European charging pass and the possibility for a home charging station. Moreover, there are charging facilities at our offices and client sites.

Continuous Professional Development Broaden your horizons with ongoing personal and professional growth opportunities, both horizontally and vertically.

Dynamic Team Environment: Become part of a close-knit team, where collaboration and team spirit are celebrated with regular activities.

Apply

Completely convinced to start in our team?

Send us (Tina and Pauline) your CV with a short motivation via jobs.be@pa-ats.com , and we will contact you very soon!

We welcome and encourage diversity in the workplace. We thank all applicants for their interest, but only those selected for an interview will be contacted.

Good luck and hopefully see you soon!
