

Project Engineer (M/F/X) Nuclear Pressure Equipment

Apply Now

Company: Vinçotte

Location: Belgium

Category: architecture-and-engineering

As a Project Engineer (M/F/X) in the Nuclear Pressure Equipment team, you will work within the Energy & Process Industries (EPI) Business Unit. EPI supports its customers in the energy and process industries, offering advanced solutions and advice from experienced specialists. EPI assists a wide range of customers such as players in the nuclear sector, electricity producers, distributors & transporters of electricity, gas & water, companies active in the petrochemical and pharmaceutical sectors,... Monitoring/supervision (checking conformity with standards and regulations) of non-destructive testing activities performed on pressure equipment, mainly in the nuclear sector, in Belgium and internationally (nuclear power plants, manufacturing departments, etc.). This involves : validating the inspection procedures presented by non-destructive testing service providers verifying the qualifications of non-destructive testing operators working for service providers supervising the performa...
