PROJECT MANAGER

As a Project Manager you have the lead role in planning, executing, monitoring, controlling, and closing our data projects. We are interested in professionals with excellent project management experience and a keen interest in the functional aspects of the data management domain. Your ability to understand business and technical needs, as well as to propose and implement relevant data solutions for our clients is key to this role.

Your qualifications are:

10+ years of working experience in data and project management

proven delivery experience with data related projects such as data analytics, data warehousing, marketing automation, CRM/ERP, ...

experience with long-running projects in complex business environments

project management methodology experience practical experience with Prince II, PMBok, PMI, ..agile, waterfall, hybrid

proven change and stakeholder management

an analytical and creative mind

solid organizational skills including attention to detail and multi-tasking skills

proven ability to deliver in time, budget and scope

preferably trilingual: English (requirement) and/or Dutch, French

excellent communication and presentation skills, both written and oral

strong interpersonal skills: excellent leadership and coaching skills

flexibility and ableness to work under pressure

proven success in contributing to a team-oriented environment

willingness to travel in Belgium and potentially abroad

Your academic requirements are:

Bachelor or Master's degree

Datalumen is an equal opportunities employer.
