

Project Manager HVAC

[Apply Now](#)

Company: EQUANS

Location: Belgium

Category: other-general

What if you could shape an HVAC project from A to Z?

Make your mark on our projects!

In this job, you will work on the most exciting HVAC projects from start to finish. You are **responsible** for coordination, execution and follow-up, as well as for the various teams working on it.

Your **valuable experience** in a similar role will undoubtedly get a place in the spotlight!

You will have the opportunity to be active on **sites & projects throughout Flanders**.

To you this job as Project Manager means:

(depending on specific function)

expanding your knowledge

working in your region

teamwork with the necessary independence

mobility

mobile phone

additional paid leave

lease car

insurances

internet fee

eco & meal vouchers/meal allowance

At Equans, our colleagues work in more than **50 branches** spread throughout Belgium and Luxembourg.

You experience both the **stability** of a large company as well as the **pleasant, collegial atmosphere** in our smaller teams.

Do you think safety is important? So do we! That is **whysafety** in all its forms is our #1 priority and we ensure a safe working environment for every Equans-colleague.

Every day, our Project Managers enthusiastically choose the most **diverse projects that matter** and where they can put their skills to full use in order to achieve a successful result. They do this alongside their motivated teams in which **teamwork** and supporting each other are a given.

Ready to join them? **#ProudToMakeItReal**

What do you need?

The job?

masters degree in industrial or civil engineering: electromechanical, electricity, construction, climatization, energy

minimum 5 years of experience

leadership skills

team player

organizational skills

resilience to stress

French and/or Dutch with good knowledge of the other language and English

technical and commercial management of HVAC projects

manage team of draftsmen, fitters, and technicians

participate in site planning & prepare technical files
