

Project Manager Mobile Automation (with French language skills)

[Apply Now](#)

Company: KION Group

Location: Antwerp

Category: computer-and-mathematical

Our Mobile Automation department provides automation solutions to a range of customers in different sectors of the industry with automatic guided vehicles (AGV). Having good relationships and collaboration with our customers is crucially important to us. Together, we aim for closer collaboration and we raise the standards – every time.

To further strengthen the department, we are looking for you as Project Manager at our location in Antwerp as soon as possible.

What we offer:

International environment

Enthusiastic team of co-workers

High-tech working environment and business that's always evolving

A comprehensive package of extralegal benefits (meal vouchers, insurances,...)

Competitive salary with including company car

Tasks and Qualifications:

Responsibilities:

you will be responsible for AGV projects from beginning to end

Your helicopter view allows you to have an overview of a project from the sales assignment to completion

You will work on both short-term and long term projects

You love coaching and motivating a project team, just like developing customer relations in a commercial context

You will also monitor the project's objectives regarding concept, safety, quality, schedule, budget and contract changes

Within the framework of our corporate culture, we rely on your sense of responsibility, openness and enthusiasm and you can rely on our enthusiasm and passion to grow together

What we are looking for:

You are interested in the application of high-tech solutions in industrial environments

You have some experience in project management

You are precise, flexible and conscientious

You accept responsibility

You share your passion

You communicate openly

You have an excellent knowledge of French and English. Knowledge of Dutch or German are a plus.

You are willing to work on projects abroad and are flexible to travel
