

PROMPT ENGINEER TRAINEE (3 MONTHS)

[Apply Now](#)

Company: AGC Glass Europe

Location: Belgium

Category: computer-and-mathematical

What if your next job was about...

Your mission :

You will be part of the New Business Development (NBD) Team – a team of approximately 30 people passionate about supporting incremental (core business and market penetration) and adjacent (diversification and new technologies) innovation through design thinking methods.

Under the guidance of ideation's supervisor and the manager of the innovation team, you will delve into structure of the creation process and help the team to improve the existing structure. In order to do that, you will employ generative techniques to foster innovation and streamline processes.

Responsibilities will include :

Conducting data analyses and diagnostics on current processes

Proposing enhancements utilizing new prompts, AI tools, and LLM technologies

Contributing to the development of ongoing projects

Compiling weekly updates on AI advancements and their implications

Specific tasks will include :

Gather datas and make diagnostic based on the current process

Developing proposals for improvements using new prompts, AI tools, and LLMs

Develop an existing project

Providing weekly news on AI

Are you the perfect match ?

Your talents :

Minimum Bachelor's Degree – Master's Degree

Data analysis and strong problem solving

Prompt engineering and LLM understanding

Coding (javascript, python, HTML, CSS...)

Time management and communication skills

Pro-active and curious attitude

We are looking for candidates who are passionate about AI and LLMs, with a keen interest in prompt engineering and innovation processes. The ideal candidate should be eager to learn, adapt, and contribute to the cutting-edge projects at AGC Glass Europe.

What do we offer

Why you should apply ?

Hands-on experience in a leading multinational corporation

Exposure to real-world applications of AI and LLMs in innovation processes

Opportunities for professional growth and development. Willingness to pursue the work.

A homeworking policy (2 days a week).

Curious to know more

about your future site ?

You will be based at AGC's Technovation centre in Gosselies where research and development, engineering and intellectual property activities are centralised under one roof with about 300 staff members. With different nationalities, the atmosphere reflects our values of inclusion and diversity: we value the uniqueness of individuals and the different

perspectives and talents they bring to AGC. Our teams have a great exposure to different aspects of glass business and new technologies. They are driven by collaboration, motivation, curiosity and respect for autonomy. This makes daily work enjoyable and life easier.
