

## QA/QC Engineer Energy Island Belgian Coast

[Apply Now](#)

Company: DEME

Location: Belgium

Category: computer-and-mathematical

The capacity of the Belgian wind farms will be greatly improved in the predicted years. A 2nd offshore wind zone is being planned in the Princess Elisabeth zone off the Belgian coast. To bring this energy ashore, an energy hub is being built in the sea, in the form of an island, more than 40 km off the Belgian coast. This island – the Princess Elisabeth Island – will house the electrical components to bring the energy from the annual wind farms to the mainland. The Princess Elisabeth Island will be the first energy island in the world, a unique project. As a QA-QC engineer you will be involved in establishing policies, processes, qa/qc for the Belgian Energy Island project.

You will support the QA-QC manager for the project management system

Make up a QA/QC project plan in cooperation with operations

You will ensure the establishment of quality procedures including time limits for inspection, sampling and testing of works and other QA/QC requirements

You will take care of QA/QC documents of the entire project including certificates, calibration, test results, inspection requests, non-compliance reports and site instruction/observations, permanent materials delivered and other QA/QC documents. Responsible for the closure of Non-conformance, NCR and Site Instruction

You are a qualified civil or industrial engineer, preferably in construction or with marine experience

You have preferably a minimum of 5 years relevant experience with expertise in QA-QC,

process management in civil or marine projects

You have a keen interest in engineering, processmanagement and execution of civil works

You have a strong analytical mindset

You are able to express yourself fluently in spoken and written English, knowledge of Dutch is considered an asset

An extensive mobility program for a healthy work-life balance

a permanent training track which allows you to develop yourself personally and professionally

a stimulating, innovative workplace with numerous growth opportunities

a people-oriented environment with an interactive health program and a focus on employee wellbeing
