

## R&D Engineer

[Apply Now](#)

Company: HITACHI ENERGY BELGIUM

Location: Charleroi

Category: computer-and-mathematical

### Description

Due to our continuous growth, we are further strengthening our R&D Engineering team, and hiring an R&D Engineer. This role is especially focused on development and testing of Energy storage products, and based in Jumet, Belgium.

#### **Your responsibilities :**

You will help to develop the next generation Power Electronics and energy storage systems focusing on the testing and design improvements.

Work with a global R&D team ensuring knowledge sharing, and timely and high-quality deliverables.

Support the project teams in the installation and execution of tests, measurements and characterizations.

Build experimental set-ups conduct tests, and analyze test results, possibly including physical modelling.

Plan laboratory activities for the consecution of the team and projects goals, as per the guidelines of the company.

#### **Your background:**

BSc or MSc Electrical/Electronics/Electrotechnical Engineering or equivalent.

Ideally minimum 5 Years of working experience in electrical or mechanical fields.

Sound analytical skills and experience with planning, conducting and analysis of experiments.

Experience in, or ability to develop, project management and planning skills.

Expertise in testing of power electronic converters and systems.

Fluency in English, both written and spoken and French would be an advantage.
