R&D Process Engineer - Enzyme

Are you driven to make an impact and ready to dive into continuous improvement projects?

As our R&D Process Engineer – Enzymes, you will manage key projects to increase the yield of existing enzymes and lead the upscaling and industrialization of new enzymes whilst being the connecting link between our R&D and Operational teams. Come and join our R&D team in Puratos Andenne where our R&D expertise centre & production is located!

Key Accountabilities

You lead projects for improvement of enzyme production at industrial scale

You lead technology transfer programs to on-site manufacturing for enzyme upstream and downstream

You coordinate the identification, testing and validation of new type of production equipment, technologies and processes at the junction of R&D and Production

You collect the data Analysis : proper data retrieval and proficient user of bioprocess data analysis tools (R&D and Production data - holistic approach) for fermentation and downstream to identify and suggest improvement initiatives to **increase production yield**

You coordinate the **Risk Analysis** and **Hand-Over** processes from pilot to industrial scale enzyme production

You are the reference for troubleshooting and concrete short-term definition of actions upon operational problems aligned with R&D and Production teams

Our Factory in Andenne is awarded this year as Factory of the Future”, discover here more:

Who are we looking for?

You have a master or Ph.D. in Biochemical Engineering or related engineering field with 5-7 years of industrial experience

You show hands-on development expertise with microbial fermentation and downstream processes for industrial enzyme production

You gained experience in bioprocess scaling-up and deep understanding of USP and DSP parameters

You are a passionate team player with proven managerial capabilities and proactive to process optimisation

You can work in a matrix organization and collaborate with different teams

You have a problem solving mindset and “can do” approach

You master the French and English languages

Why should you join Puratos?

You will be welcomed in a dynamic work environment where passion for innovation, team spirit and continuous improvement are key. You can count on a competitive salary package with attractive benefits such as:

Meal vouchers (8€/day)

Group, dental and hospitalization insurance fully paid by Puratos

13th month pay

Company car

Minimum 5 training days per year

Responsibilities and the possibility to take ownership of your work
