

Belgium Jobs Expertini®

Regional Sales Manager (m/f/d)

[Apply Now](#)

Company: RUTRONIK Electronics Worldwide

Location: Belgium

Category: other-general

Your role:

You advise together with your Team customers in all technical matters, from the evaluation and design-in phase to the start of production

You focus on design-in products but do also promote our standard and commodity components

You support customer projects on-site with the customer

You serve as the middleman between the customer and the manufacturers and keep regular contact with both

You work and frequently visit customers with our Field Sales Engineers and alone to generate and track new projects together

Your qualifications:

You have successfully graduated with a college degree in electrical engineering or a comparable discipline, or can demonstrate a comparable career background

You are familiar with the technical specifics of standard modules and applications in automotive, medical engineering, consumer, and lighting applications, among others

Ideally you have already gained some initial professional experience in the distribution or development of technical products

You have an active customer focus and you are an effective Communicator

You gained experience in the management of employees

You have a good command of Microsoft Office

Interested? Simply send us your application (online),
specifying your salary expectations and period of notice.
