

## Researcher Numerical Modelling of Coolant Chemistry

[Apply Now](#)

Company: sck cen

Location: Mol

Category: other-general

PhD in engineering science, preferably in Chemistry, Material Sciences or a related field

expertise in physical chemistry and thermochemical modelling

demonstrated experience in numerical modeling and simulation

familiarity with nuclear reactor technologies, particularly with regard to coolant systems

experience with thermodynamic software such as HSC Chemistry, Thermo-Calc, FactSage, etc. and programming skills are assets

strong analytical skills, coupled with the ability to collaborate in multidisciplinary teams

excellent communication skills, both written and verbal, with the ability to articulate complex technical information clearly and concisely

able to thrive in an international, highly skilled environment.
