Company: Facil

Location: Belgium

Category: computer-and-mathematical

A Digital Transformation program has been launched. The primary scope is to replace its current legacy ERP landscape and implement SAP S/4HANA private cloud edition. The key focus will be on redesigning and deploying leading processes enabled by SAP S/4HANA best practices.

Job description

As an SAP Business Analyst your focus and main activity will be on the implementation of SAP S/4HANA as part of a global project team. You will play an active role between business, key-users and the implementation partner to align and ensure business needs are covered and aligned with the SAP implementation strategy. You perform fit-to-standard gap analysis for business requirements and deliver solutions in line with standard SAP S/4HANA.

Other responsibilities include identifying potential business values enabled by technology, overseeing incidents and staying up to date on the developments & evolution of SAP S/4HANA. Reporting directly to the Global IT Director, the SAP Business Analyst will provide guidance, coaching and training to business users and other colleagues.

Together with the implementation partner, Facil has a global implementation project team based in Genk Belgium, where you will have a direct impact on the success of the program.

Are you looking for a unique opportunity to be part of a greenfield SAP implementation, based on SAP S/4HANA Private cloud (SAP RISE program)?
