## SAP Data Analytics Architect

SAP, data & ai, lot of experience, consultant Belgium share on

Ready to **take the lead** data & analytics projects and think of innovative ways to build data solutions that fit each customer's needs? Are you an experienced SAP Data Analytics Architect with the skills to prove it?

**Apply for SAP Data Analytics Architect!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

### Who are you?

You combine your experience and passion to **deep dive into data** with the hands-on and flexible attitude to **lead data & analytics projects** from data capturing and information management, to data visualization and analytics insights. As a data analytics architect, you love **managing projects**, and getting the absolute best out of your team, every step of the way.

You have the **commercial insight** to put yourself in the shoes of the customer, understand their reality and translate the functional blueprint into a technical architecture or

solution. As a **mature, technically skilled developer**, your stay **involved and engaged** throughout the project implementation cycle, even after the go-live.

You are **ambitious** and eager to take on a varied range of projects. You are **keen on growing and diversifying your architectural skills** by designing integrations with other solutions. You are **committed to expand your knowledge** by staying up-to-date on the latest technologies in your field and mentoring your less-experienced colleagues. You love **building business relationships**, collaborating with Sales colleagues and helping our team grow further in Wallonia.
