SAP Development Lead

SAP, software development, lot of experience, consultant Belgium share on

When was the last time you translated a business need into a technical solution that could change an entire organization? That's exactly what you'll do with us!

As a Senior SAP Development Lead at delaware, you truly understand what businesses need and how we can deliver it. You're eager to take the lead in transforming ideas into innovative solutions, guide customers through their move to SAP S/4 HANA, and add value to their business processes.

If development is in your DNA and you're ready to take on a leading role, then you may be the Senior SAP Development Lead we're looking for.

Apply for SAP Development Lead!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

Who are we?

Did you know delaware is Belgium's biggest SAP integrator? This means we get to work with the latest SAP technologies, such as all S/4 HANA deployments, SAP Fiori, SAP Cloud Platform

services like ABAP Environment, iRPA, HANA Cloud, API Management, and the SAP Business Technology Platform. Enough with the name-dropping though — you probably already know your way around these technologies! And if you don't, we'll happily guide you through them .

We are the SAP Development team. We're a fun-loving and ambitious team with a strong group dynamic. Even though there are more than 60 of us, we're still a very tight-knit bunch! We love going for drinks together and we organize the best team events. It's in our nature to coach our teammates: seniors happily share knowledge with newer members of the team (and vice versa). So what's it like to work with us? 'Unique,' 'adventurous,' and 'challenging' are just three of the words team members have used to describe their experience. Read our stories here.

We have a broad spectrum of projects and customers in a wide variety of sectors and across the entire range of SAP modules. We also offshore development work to our colleagues in Harbin (China), but it's up to the development lead to decide which tasks stay with us and which are sent to China.

Just so you know: delaware has offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège** and **Wavre** , but we also spend a lot of time working with our customers **onsite**. We also offer the flexibility to work from home.
