

SAP EWM Consultant

[Apply Now](#)

Company: Covetrus

Location: Beringen

Category: computer-and-mathematical

As a global technology company and service provider in the animal health sector, Covetrus supports companion animal, equine and farm animal practices. We offer an extensive range of products, software and services to help veterinary professionals promote animal health, maintain strong customer relationships and achieve good financial results. Everything Covetrus does, the vet is central.

In 25 countries, more than 5,000 Covetrus employees work every day to help improve the operating results of some 100,000 veterinarians and their practices.

SAP EWM Consultant

We are looking for a SAP EWM Techo-Functional Consultant that will join our team of highly experienced SAP consultants, who perform advisory and implementation services during all phases of a life cycle implementation and support during operations.

Your main tasks are:

Report to the SAP SCM Lead and deliver work assigned to you in the SAP EWM area.

Analyze requirements and help prepare the business case, following the best practices and present it for approval by the change board.

Maintain the functional and technical design documents.

Make the necessary configuration in EWM and be able to develop the required changes.

Formulate and maintain system- and user documentation in designated repositories and support the user community.

Provide active support on operational issues, propose potential solutions and after approval, support the implementation of improvements to template solution.

Support the SCM lead to design and safeguard the template on Warehouse management involving SAP EWM.

Support the business process owners in building the best fit solution ensuring that it meets the future objectives & strategy of the organization.

Your profile:

Bachelor's or Master's degree in relevant fields.

At least 4+ years of experience with SAP, including end-to-end implementation of SAP S/4 HANA with SAP Fiori.

Ability to explain the technical solutions in business language to business stakeholders.

Command of the English language.

Good knowledge of SAP EWM configurations and the integration with MM and SD.

Experience with debugging and developing within EWM.

Experience with usage of Badi's within EWM.

Experience with set up of RF devices and the configuration.

Analytical, solution-oriented & result driven personality and have an end-to-end perspective.

Experience in wholesale distribution and pharmaceutical industry would be an added advantage.

Experience with using and enhancing CDS views.

What can you expect from us:

- A challenging and enterprising work environment with an informal work environment.
- Excellent terms of employment, extra-legal benefits and a bonus based on targets.
