SAP Finance Solution Architect

SAP, finance, lot of experience, consultant Belgium share on

The delaware SAP Finance & Business Controlling team is currently on the lookout for an SAP Finance Solution Architect. We're looking for a **highly experienced SAP Finance functional specialist** with a broad knowledge of the field who can translate our customers' business needs into the best SAP solutions for their finance roadmaps.

The ideal candidate not only has a **profound knowledge of the SAP Finance portfolio**, they also have the **skills and mindset necessary to guide our larger, more complex transformation projects in the finance and controlling area**.

As a Finance Solution Architect, you should be able to **cover the full spectrum of Finance**, including financial planning & analysis, accounting & financial close, finance operations, treasury management, and enterprise risk & compliance.

You will play a **lead role in medium to large SAP Finance projects**, safeguarding strategic choices during implementation. Here, again, you should bring your expertise to all the different phases of the project: from pre-studies and prototyping, business analysis and roadmapping, to the actual SAP Finance architecture design. You will also lead client workshops and conduct knowledge transfer activities to help our customers develop their skills.

Excellent social and communication skills are essential, as you will be collaborating closely with our business consultants and coaching your colleagues during implementation, as well as participating in our internal knowledge transfer. These key skills will also help you build effective links with the outside world, establishing long-term business partnerships with our customers and leveraging the SAP network itself based on your extensive experience.

Apply for SAP Finance Solution Architect!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

Who are we?

The delaware SAP Finance & Business Controlling team is an agile team of **finance and controlling specialists** who support the CFO's office by translating their business needs to innovative solutions . We strive to provide high-quality, integrated, and automated solutions for large enterprises and multinationals. Our main goal is to guide our customers toward best practices in finance, thereby making finance and controlling more efficient for them while ultimately enabling their finance department to become a business partner for the entire organization

We're a **pioneer** when it comes to **SAP S/4HANA** . While we still support customers who use SAP ECC, we leverage the most recent S/4HANA versions on all of our new transformation projects, including migrations. So you'll definitely be involved in a wide range of innovative SAP projects!

Collaboration and knowledge-sharing are crucial to our team. We're deeply committed as well as incredibly resourceful in our approach. No matter how complex the issue, together we can solve it.

delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, and Wavre** . Next to that we can leverage our broad international network to successfully take on full-scale multinational IT and business transformation projects. We also have a "where you work best" policy, meaning we work where we work best, when we work best. But just so you know, we also spend a lot of time connecting and working together with our customers on-site.
