Company: Inetum

Location: Belgium

Category: computer-and-mathematical

### Mission

We are currently seeking a skilled and experienced SAP PP/MM Consultant to join our team. As an SAP PP/MM Consultant, you will play a critical role in implementing and managing the SAP Production Planning (PP) and Material Management (MM) modules. You will work closely with our clients to understand their business processes, gather requirements, configure solutions within the SAP ERP system and to be the spokesperson for future SAP migrations from ECC to S/4 HANA.

Responsibilities:

Collaborate with clients to identify and assess their business requirements related to production planning and material management processes.

Configure and customize the SAP PP and MM modules to meet client specifications.

Conduct end-to-end implementation projects, including system configuration, data migration, testing, and user training.

Provide ongoing support and maintenance for SAP PP and MM modules, including troubleshooting and resolving any system issues.

Collaborate with cross-functional teams to integrate SAP PP and MM functionality with other modules, such as MM, SD, and FI/CO.

Ensure compliance with all relevant regulations and industry best practices.

## **Profile**

Requirements:

Bachelor's degree in Computer Science, Information Technology, or related field.

Minimum X years of experience as an SAP PP/MM Consultant, including full lifecycle implementation projects.

Strong knowledge of SAP PP and MM modules, including configuration, master data management, and integration with other modules.

Solid understanding of production planning, material requirements planning, procurement, inventory management, and warehouse management processes.

Excellent analytical and problem-solving skills, with the ability to design and implement effective solutions.

Strong communication and interpersonal skills to collaborate effectively with clients and cross-functional teams.

SAP certification in PP/MM modules is preferred.

Experience working in manufacturing or supply chain industries is a plus.
