SAP QM Consultant

SAP, supply chain & operations, lot of experience, consultant Belgium share on Quality is becoming ever-more important in a growing number of sectors and areas, such as the food industry for example, and it is therefore becoming increasingly important for us at delaware too. As an absolute SAP expert we are fully committed to all SAP modules and you can help us to raise quality standards at our clients' companies even further!

Apply for SAP QM Consultant!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

What will you be doing as an SAP QM consultant?

You will work in SAP within the **QM processes** during the entire product cycle: from receipt of goods via the production processes themselves up to and including shipment of the end product (final check).

Since you're involved in a significant number of different phases of product lifecycle management (PLM), you will also have regular **contact with various SAP teams within**

delaware. Therefore, your QM processes are often closely aligned with many processes of other (SAP) modules.

You'll be working on both **new** QM implementations and **updates** of existing QM setups.

You will be participating in projects where QM is implemented in a larger ERP project, but also in smaller follow-up projects and optimizations.

You will be working for many different customers in **diverse industries** so you're assured of plenty of **variety**.

You will have the opportunity to further specialize in **your QM area of expertise**. Who knows, you could become the QM pioneer within delaware.

You will have the chance to come into contact with HANA, cloud, all kinds of integrations with other components (e.g. EHS, Project Systems), new emerging technologies and more. So there will be lots of scope to gain **new insights**.

Currently, we have regional offices in **Ghent, Antwerp, Wavre, Liège, Kortrijk and Lummen**, but mostly we work on site at our customers, wherever they are in Belgium. So it does not really matter whether you are living in Limburg, Brussels, Ghent, Bruges, Antwerp... It is highly likely that we are implementing an SAP solution in your area right now.
