Company: Antal International

Location: Belgium

Category: computer-and-mathematical

### Job Description

Our client, a global IT Services company, is looking for a **SECURITY TECHNICAL ARCHITECT**

You will serve as **recognized subject matter expert** and thought leader with deep expertise in designing **information system security** areas. You will leverage your expertise to perform specialized consulting engagements and lead the creation of multi-technology solutions across business and service unit. You will act as trusted advisor to our clients helping them to define a fit for purpose security architecture in line with their security governance model.

### Requirements

**Strong and proven experience in designing, deploying, and supporting large security deployments .**

In-depth knowledge of the current security offering available on the market (Fortinet, Cisco, Palo-Alto, Checkpoint, ...)

In-depth understanding of the use of security components (IAM, SASE, SSE, NAC, VPN, PAM, cloud security, cloud-delivered security, ...) and security models (segmentation model, zero trust model,...) in hybrid and heterogeneous environments.

Understanding of security control framework (ISO2700x, NIST, CIS,...), security directive (NIS/NIS2, GDPR,..) and risk management processes.

At least 5 proved years' experience in architecture and consulting functions.

**French or Dutch** as mother tongue and good verbal and written knowledge of the other language as well as **English** .

Balanced Business and Technology savvy with a strong understanding of both applications, services and infrastructure.

Strong personal initiative and a sense for innovation, to identify efficient and competitive solutions to our clients' needs, as well as new types of engagements and solutions.

Work flexibility and willingness to travel if needed.

Strong ability to work as part of a team, and to drive or lead such teams where opportune.

Eligible and prepared to obtain NATO clearance if necessary

If you are NOT FLUENT in French or Dutch, don't apply
