

Senior Citrix Engineer

[Apply Now](#)

Company: Euroclear

Location: Belgium

Category: computer-and-mathematical

Division : Group Technology Services (GTS)

General description

End User Hosting platform team is responsible for the design, implementation and support of the Workplace infrastructure. This includes deployment and maintenance of applications delivered via Citrix, Terminal server and virtual workstations and keeping the underlying infrastructure up to date.

The team delivers third-line support to end-users and the onsite support teams across all entities.

In your role as senior Citrix engineer, you will work closely with the projects teams, Security architects and Operations Control Center colleagues globally to deliver solutions to support projects and operational service improvement.

Operating within the IT Service Management(ITSM) Framework, you will design solutions for application virtualisation to be used by all Euroclear entities globally. You will implement, document and support these designs.

Responsibilities:

Design complex Application virtualisation solutions and build standard operating procedures.

Deploy applications, debug and tackle related problems on XenApp and XenDesktop.

Maintain and supervise the infrastructure components.

Incident, request and problem management (3rd line support).

Manage patching for applications and operating systems on these platforms.

Requirements:

Experience in supporting a Windows multi-user environment, including application delivery.

Proven design, administrator and 3rd level support experience in a Citrix environment (VirtualApps 1912; VirtualApps 2203; StoreFront; Server 2019).

Strong PowerShell scripting skills.

Operational knowledge of App-V, MSI and other packaging/scripting technologies.

Experience with Ivanti or FSLogix is desirable.

Knowledge of Microsoft 365 Suite.

Good knowledge of IT Security Principals and IT Service Management.

#LI-AA1
