Senior Consultant-React Native & Angular-Brussels, Belgium

Consultant

117285BR

Job Description

Role –Sr. Consultant / Sr. Developer

Technology – React Native & Angular

Location– BRUSSELS

Business Unit – DX

Job Description

As a consultant, you are an expert at contributing to different phases of the consulting lifecycle. You will be intensely involved in; you will define the problem, propose and refine the solution. You will also play an important role in the development, configuration and deployment of the overall solution. You will guide teams on project processes, deliverables and contribute to the proposal development, client training and internal capability-building and help detail the project scope. You will have the opportunity to shape value-adding consulting solutions that enable our clients to meet the changing needs of the global landscape.

Responsibilities:

Working in a team to develop applications and services using Agile methods.

Building customer-facing UI and back-end services

Designing and implementing applications with low latency, high availability, and performance

Understanding the entire web stack, including protocols and web server optimization techniques

Mentor, and help the team technically.

Should be able to work with the team and inspire them to reach their goals.

Collaborate with your team (developers, designers, product owners, QA) to define, design, and ship new features.

Identify and correct bottlenecks, fix bugs and improve application performance.

Continuously discover, evaluate and implement new technologies to maximize development efficiency.

Determining project requirements and developing work schedules for the team.

Identifying risks and forming contingency plans as soon as possible.

Being transparent with the team about challenges, failures, and successes.

Writing progress reports and delivering presentations to the relevant stakeholders.

Skills:

Total experience 10+ years

3+ years of experience in app development using React Native

3+ years of experience in web development using Angular

Ability to write effective documentation, test cases (Jest/Jasmine/Karma)

Basic web frontend technology understanding (HTML//CSS/JavaScript/TypeScript)

Experience in CICD deployments is a plus

Functional knowledge in E-commerce experience, domain knowledge in telecom industry

Personal

Besides the professional qualifications of the candidates we place great importance in addition to various forms personality profile. These include:

High analytical skills

A high degree of initiative and flexibility

High customer orientation

High quality awareness

Excellent verbal and written communication skills

About Us
