

Senior Controls Integration Engineer, World Wide Fulfillment Design and Engineering

Apply Now

Company: Amazon Europe Core

Location: Luxembourg

Category: computer-and-mathematical

WWDE is looking for a Senior Controls Integration Engineer to be part of our global team to deliver the next generation of world-class fulfillment systems. Successful candidates are natural self-starters who have prior engineering experience in the integrated automation project life cycle, including development, design, implementation, enhancement, and support. The Senior Controls Integration Engineer will be part of a full project life cycle and responsible for successful development, delivery and performance enhancement of system designs to Operations and Maintenance customers. You will serve as a liaison between Fulfillment Center Operations and Maintenance, our Advanced Concept and Firm Engineering teams, and Amazon Fulfillment Technology and Operations Engineering partners. This role will require the ability to build relationships across a cross functional team capturing and synthesizing the voice of the customer. You will partner with internal and external teams to design hig...
