[Apply Now](#)

Company: Genius People

Location: Belgium

Category: computer-and-mathematical

The Scope

3HR.be is the Recruitment Partner of Entrepreneurs & small companies, do you like working in such a business with a family ambiance?

Our client is a Belgian Engineering office active in various Life Science Industries like Pharmaceutical, Biotechnology, Medical Devices, with expertise in Qualification & Validation, Quality Assurance, Consulting, Engineering and Construction Management.

With a constant evolving team composed 30 employees & freelances and offices in Belgium, this client is all year long looking for **Senior Commissioning, Qualification, Validation Engineers for pharmaceutical projects (on site) throughout Belgium.**

Are you ready to contribute to their growth?

Do you have an entrepreneurial mindset and are you passionate about working in Life Science industries?

We love meeting smart and forward-thinking talents, so don't hold back!

Your key tasks and responsibilities

As one of their CQV Engineers, you will

Have a knowledge of current Industry standards, regulatory requirements and Authority expectations regarding CQV

Develop project specific CQV approach and methodology

Prepare project CQV deliverables: User Requirement Specifications Risk and Impact Analysis/Assessment (Process, Business, EHS, Regulatory) Validation Master Plan (VMP)

Design Review/Qualification Test Matrices FAT, SAT, Commissioning, IQ, OQ, PQ protocols and reports

Support in project schedule for CQV activities

Organise, execute and document CQV testing

Support during system/installation start-up in function of CQV test activities

Set up and follow up of Project documentation System and Management

Work in close collaboration with Project, Engineering and Construction Management

Be in charge of the registration of quality indicators for CQV Engineer's discipline

You could be our ideal candidate if

You hold a (Professional) Bachelor or a Master's degree (or equivalent by experience), ideally in biotechnology, industrial, pharma, chemical sciences or relevant other expertise

You have a significant experience (min. 4 years) in Life Sciences industries

You have excellent communication skills in **English + French** OR Dutch (written and spoken)

You have an enhanced knowledge of current Industry Standards, Regulatory requirements and Authority expectations (Eudralex, FDA, PICS, ICH, ISO, ASTM E2500 ...)

You have a good Comprehension and understanding of technical installation, PID, equipment and buildings for the Life Science Industry

You know the latest developments in the C&Q field and relevant legislation and industry standards (cGMP).

You have a field experience with: System start-up and CQV Project scheduling Change management Project document management

You are a structured, conscientious and precise fast-learner

You are a real team player who can also work independently

You are ready to travel and you are flexible on schedules and duties

You are resourceful with a CAN DO mentality who can think proactively

You have a B driving licence

Only Europe-based and selected candidates will be contacted back by 3HR, thanks for your understanding.

We offer you

Besides an exciting flexible environment, a unique chance to participate in challenging and innovative projects and interaction with inspiring colleagues who have a professional attitude and attach considerable importance to teamwork; we stand for

A challenging job in a dynamic and knowledge-sharing network company

Full time contract

Location: Flexible depending to clients' locations

A competitive salary or rate

Other benefits for employees including a company car, fuel card, lunch vouchers, eco vouchers, pension plan, phone subscription

The freedom to develop yourself in line with your ambition

A great autonomy in your role, an excellent working atmosphere within a great team of Experts in their domain

Would you like to work for a small company with a top level service?

We are looking forward to meeting you soon.

Your application
