Senior Data Engineer

Location: Belgium

Salary: Competitive

Permanent

Position: Senior Data Engineer

Location: Belgium

Language Requirement: Dutch (fluent) and English

Company Overview:

The leading Data and Technology solutions provider in Belgium is seeking a dynamic and

motivated Senior Data Engineer to join their growing team. This is an excellent opportunity for an

ambitious individual to kickstart their career in the field of data engineering.

This is one of 3 open positions they have in the team. As this is a Senior position, they are

only willing to consider individuals who have professional experience as a Data Engineer.

Responsibilities:

Designing and implementing batch and real-time data ingestion and processing pipelines for

Azure Data Lake/Synapse or similar cloud-based (AWS) data warehouse or data lake solutions

Implementing data quality checks and log pipeline outcomes

Work with parameters stored in metadata tables

Implementing data lineage, aggregation, and reconciliation mechanisms (including

monitoring dashboards and alerts)

Implementing data cataloging, archiving, and disaster recovery

Work with data source and data consumption teams to align on data structures, security, and schemas

Requirements:

Familiarity with modern, cloud-based data/BI technologies (data lakes, data warehouses, ETL/ELT, Spark)

Experience with implementing data ingestion pipelines / ETLs / ELTs

General knowledge of Azure or comparable platform and ecosystem Storage Account, CosmosDB (SQL & Gremlin API), Event Hub, App Services

Experience with SQL, Python

Its advantageous if you have experience with at least 3 of the following Azure data technologies or similar Cloud technologies:

Azure SQL

Azure Data Lake

Azure Databricks (SQL or Python, Delta Lake)

Azure Data Factory or Synapse

Azure Analysis Services

Nice-to-Have:

Bachelor or higher degree in Informatics, Business Engineering, Computer

or related technical discipline

1-3 years of field experience in a similar role

Fluency in **Dutch** and **English** .

This company offers a comprehensive list of benefits, including 13.92 monthly salary payments, meal vouchers, group insurance (pension, etc.), medical insurance, company car, and more.

How to Apply:

Interviews are taking place from **Monday 12th February** .
