Analyze data to detect anomalies

Write scripts (Python,…) to automate test execution

| WE ARE LOOKING FOR:

You have:

Experience in C and Python

At least three years of experience in embedded software testing

Experience in test automation

Analytical mindset

| WHAT YOU CAN EXPECT OF TMC:

TMC is a technology and science consultancy company that brings expertise to their clients in order to support them with the realization of their technological challenges. As such, TMC is operating as an expert center at the disposition of its clients in order to help them to be more competitive in an ever more global and faster changing technological world.

TMC is truly unique thanks to our business model called the Employeneurship model which comes as a true innovation for the High Technology consulting business. It's the business relationship of the 21th century for high skilled Engineers & Scientists, and our model is built around 5 main pillars:

Permanent employment contract, offering you stability and security

Individual profit sharing: know your market value and share in the profit your work generates

One-on-one coaching and trainings designed to help you develop your entrepreneurial skills

The competence cells structure, providing a strong relevant network

The entrepreneurial lab: a playground for new ideas and a launching for start-ups

TMC is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
