Senior Engineer E&I

SENIOR ENGINEER E&I

Are you looking for a challenging position where you can leverage your deep expertise in electrical and instrumentation, while also developing innovative solutions for the process industry? At PA Solutions, we warmly welcome you! Currently, we are seeking an experienced Senior Engineer E&I to join our team.

Responsibilities:

As a Senior E&I Engineer, you will be responsible for the design, engineering, implementation, and maintenance of E&I systems within various projects in the process industry.

You will play a leading role in coordinating projects, working closely with internal teams and external partners to achieve project objectives.

You will analyze technical specifications, establish budgets, and ensure proper planning and execution of projects.

Additionally, you will provide technical support to junior team members and serve as a mentor within the team.

Who are we?

At PA Solutions, you become part of a fast-growing company that is the ideal partner for tailor-made automation solutions in various sectors such as pharmaceuticals, chemistry, life sciences, and more. Here, we explore innovative paths to success together with our clients!

Requirements for this position:

Hard skills:

Preferably, you hold a bachelor's or master's degree in a technical field.

You have several years of experience as an E&I engineer, preferably in the process industry.

You possess excellent knowledge of relevant software and tools, such as Eplan and AutoCad.

You hold a valid driver's license.

Soft skills:

You communicate clearly, both with clients and within the team.

You are resilient to stress

You have technical insight and a critical eye, yet maintain an overview.

You have natural leadership qualities and can motivate people.

You are fluent in English and Dutch.

Location:

Our offices in Belgium are located in Melsele and Antwerp-Berchem. But our client is located in Ghent, so you will commute there daily.

What do we offer you?

We're on a fast track, expanding globally through strategic acquisitions and are now seeking talent ready to join this train of continuous growth.

That's why we offer:

Exclusive Compensation PackageWe offer a competitive salary, complemented with fringe benefits.

Flexible Working hoursWe provide flexible hours and the option for remote work, tailored to your professional lifestyle.

Sustainable Mobility Solutions: You'll receive a fully electric company car, complete with a European charging pass and the option for a home charging station. Additionally, there are charging facilities available at our offices.

Continuous Professional Development: Broaden your horizons with ongoing personal and professional growth opportunities, both horizontally and vertically.

Dynamic Team Environment: Become part of a team where collaboration and team spirit are celebrated through regular team-building activities.

Convinced to start in our team?

Send us (Tina and Pauline) your CV with a brief motivation via jobs.be@pa-ats.com , and we'll get in touch with you very soon!

We welcome and encourage diversity in the workplace. We thank all applicants for their interest, but only those selected for an interview will be contacted.
