

Senior FCG Analyst

[Apply Now](#)

Company: Ageas

Location: Brussels

Category: computer-and-mathematical

Your function

Within the Capital Management, Treasury & FCG department in Brussels, we are looking for a **Senior FCG Analyst** to join the Free Capital Generation (FCG) Team. more for business management, but also externally disclosed and used by analysts and investors to validate and compare the relative performance of insurers.

The concept of Free Capital Generation measures long-term **capital sustainability** and **capital performance** of an insurer. The concept is not only used more and more for business management, but also externally disclosed and used by analysts and investors to validate and compare the relative performance of insurers.

In your role as FCG Analyst, you bring technical solutions and developments within the domain of free capital generation and you offer technical support to the treasury and capital management department.

You support the Head of FCG with:

Contributing to and challenging the current **Ageas FCG framework**

Maintaining the technical structure, documentation, and user interface of the **in-house developed FCG Application** ;

Developing new features and functions to keep the FCG application up-to-date in line with specific business requests, market evolutions or regulatory developments;

Brainstorming various **methodological aspects** related to Free Capital Generation;

Further embedding **Application management** for the FCG application;

Collaborating and aligning with other Group departments and local entities on core valuation principles as applied in other applications;

Offering **functional or technical support** to the Treasury and Capital Management department on a need basis.

Your profile

You have a master in (Applied) Economics, (Civil or Commercial) Engineering, (Applied) Mathematics or Actuarial Sciences;

You have 2-7 years of experience in finance, preferably in insurance;

You have affinity with financial markets;

You have a basic understanding of the Solvency II framework;

You have a good knowledge of Excel VBA - reading and writing VBA skills are a must;

You are highly motivated and you have a self-learning attitude;

You are a team player, but you are able to work independently as well;

You are fluent in English.

Our offer

The possibility of (maximum 50%) home working;

A dynamic, multicultural working environment;

An interesting and extensive salary package (including meal vouchers, eco vouchers, hospitalization, disability and group insurance, additional child benefit, mobile allowance and intervention in the internet reimbursement, ...);

The possibility to optimize part of your salary package through a flexible income plan;

A corporate culture where you are encouraged to share your views and opinions;

A flat organizational structure with close collaboration and communication with management and cross departments;

An extensive range of learning & development opportunities through our online learning platform;

The opportunity to further develop yourself and to be part of a great team at a Top employer in Belgium. Find out more about it .
