Senior SAP Developer

SAP, software development, some experience, developer Belgium share on

When did you last build a solution that could change an entire organization? That's exactly what you'll do with us!

You're a **well-rounded SAP developer** who truly understands the 'business value' of coding. You're eager to unleash your programming skills on **innovative** projects, and look forward to guiding customers through their move to **SAP S/4 HANA** and add value to their business processes.

If you're just as passionate about code as we are, and you have a **strong sense of customer satisfaction** – we are, after all, consultants – then you may be the SAP Developer we're looking for.

Apply for Senior SAP Developer!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

Who are we?

Did you know Delaware is Belgium's biggest SAP integrator? This means we get to work with

the latest SAP technologies , such as all S/4 HANA deployments, SAP Fiori, SAP Cloud Platform services like ABAP Environment, iRPA, HANA Cloud, API Management,... and the SAP Business Technology Platform. Enough with the name-dropping though – if you're an experienced developer you probably already know all about these! And if you don't, we'll tell you all about them .

We are the **SAP Development team** We're a fun-loving and ambitious team with a strong group dynamic. Even though there are more than 60 of us, we're still a very tight-knit group! We really enjoy going for drinks and organize the coolest team events. It's in our nature to coach colleagues: seniors happily share knowledge with juniors (and vice versa). So what's it like to work with us? 'Unique', 'adventurous' or 'challenging' – those are just three of the words that our developers use to describe their career. Read our stories here. We have broad spectrum of projects and customers in a wide variety of sectors and across the entire range of SAP modules. We also offshore development work to our colleagues in Harbin (China), but as a senior consultant you decide which tasks stay with us and which are sent to China.

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège** and **Wavre**, but we also spend a lot of time working together with our customers **site** . We also offer the flexibility to work from home.
