Senior Software Developer for Natural Application Integration Mainframe (Adabas & Natural)

Apply Now

Company: Software AG

Location: Hasselt

Category: computer-and-mathematical

Software AG simplifies the connected world. Founded in 1969 it helps deliver the experiences that employees, partners and customers now expect. Its technology creates the digital backbone that integrates applications, devices,data and clouds; empowers streamlined processes; and connects "things" like sensors, devicesand machines. It helps 10,000+ organizations to become a truly connected enterprise and make smarter decisions, faster.

Customers around the world have developed business-critical enterprise applications based onAdabas(DBMS) and Natural (Programming Language) to run their core business transactions and processes, e.g., large financial enterprises, government organizations, retailers, and others. Contributing to our long-term customer strategy Adabas& Natural 2050+ to modernise and move core applications into the future.

The stable and successful   Adabas& Natural business is a key building block to Software AG's overall success with new business opportunities within the existing install-base and beyond.

Be you, join us

We are looking for a Senior Software Developer for Natural Application Integration Mainframe. You are passionate about software integration. You build bridges between server software and any client application. If you are at home in the world of middleware, this role is the challenge for you.

Essential Functions

Develop and maintain the integration architecture that supports the seamless flow of data between different Natural applications and other systems (RPC - Remote Procedure Call).

Implement APIs, web services and/or middleware for effective data exchange.

Develop of adapters for various integration scenarios.

Maintenance & development of security concepts to protect sensitive data during integration processes.

Evaluate and recommend integration tools, technologies, and frameworks.

Provide comprehensive documentation of integration processes, configurations, and code.

Work with Quality Assurance teams to implement effective testing strategies.

Minimum Requirements

Bachelor's or Master's degree in Computer Science, Information Technology or a related field.

Proven years of experience as a software developer specializing in application integration.

Strong knowledge of integration patterns, techniques, and technologies.

Very good knowledge of programming languages such as C/C++, Assembler, Java, and others, on z/OS. Linux and Windows knowledge is an advantage.

Experience with integration platforms and middleware solutions such as z/OS Connect, IBM MQ (WebSphere MQ), Kafka or other message brokers.

A passion for elegant, testable. and maintainable code and an openness to new technologies and methodologies.

Strong problem solving skills and ability to resolve complex software issues.

Very good written and spoken German and English skills.

We value teamwork, open communication, continuous learning, and any feedback.

What's in it for you?

Earn **competitive total compensation** and receive comprehensive country-specific medical and other benefits.

Enjoy time and location flexibility with **Hybrid Working Model**, which allows a remote workshare of up to 60%. Work anywhere in your country or abroad for up to 10 days per year.

Set yourself up for success in your new role by upgrading your home office space using your one-time hybrid work payment.

Lean on the **Employee Assistance Program** for support during some of life's most common but difficult challenges.
