

Senior Strategy Manager Energy

[Apply Now](#)

Company: EmpHire

Location: Bruxelles

Category: management

We are seeking a Senior Manager with at least 8 years of strategy consulting experience, fluent in either French or Dutch, and possessing expertise in strategy consulting. As part of this prestigious client, you will have the following responsibilities: Contributing to a diverse range of projects within the financial services industry, aiding clients in addressing their challenges effectively. Collaborating with Partners and Directors to formulate hypotheses and develop plans that align with project objectives. Offering clients a forward-thinking perspective on key strategic issues impacting their operations. Assisting clients in crafting their strategies and identifying the appropriate initiatives and projects to execute those strategies.

Leading engagements, including defining the approach, engaging with stakeholders, and guiding the project team's activities. Engaging in high-level discussions with clients at the C-suite level, demonstrating a blend of creativity and deep industry knowledge. Articulating analysis and recommendations through both written and verbal communication to internal and client leadership. Cultivating relationships between client's & project team. Providing opportunities for professional development and offering feedback to junior team members. Requirements You must have a genuine passion and deep expertise in the Energy & Utilities space in Belgium. You speak both French & Dutch. You have worked to delivery business growth.
