Belgium Jobs Expertini®

Software Defined Data Center Consultant

Apply Now

Company: ITQ

Location: Belgium

Category: computer-and-mathematical

You are an experienced and passionate VMware engineer, consultant or architect on the Software-Defined Data Center and its components. You are a Belgian resident and have the ability to identify customers use cases and translate them into solutions based on rapid innovations of the software defined datacenter. You are looking to immerse yourself in challenging environments to get yourself and your colleagues to a higher level.

You feel the drive to help our customers to get the most out of their SDDC with the use of technologies like VMware vSAN and VMware vRealize Operations (VMware Aria Operations). Experience with Dell VxRail environments is a big plus.
