As an Onboarding Consultant at delaware you help companies to provide optimal support to their key asset: their employees. But that's often more complex than it seems. The HR department juggles a thousand and one tasks every day, which can make it difficult to find time to innovate and change. That's why we regard it as our mission to **support HR departments in transforming their HR processes and in offering their employees the tools to succeed and grow.** The implementation of state-of-the-art applications can dramatically reduce the workload and help the entire organization and the people that work there to flourish.

That's why our projects generally focus on the big picture. We always go for the 'full monty': **a complete upgrade of all HR processes, with cloud-based tools that offer companies valuable insights into how their people are doing.**

And we always deliver. It's what makes us stand out from the pack. Are you keen to work with us to make our customers even more successful?
