Belgium Jobs Expertini®

Systems Engineer - Linux Production Support

Apply Now

Company: Euroclear

Location: Belgium

Category: computer-and-mathematical

Division: Group Technology Solutions (GTS)

Your Role:

The Open Systems department is looking for a bright, passionate and dedicated employee to join our **Linux Engineering** team.

In this role you will be responsible for supporting our production transaction processing systems. These systems are part of the backbone of our business and process millions of transactions daily for some of the most prestigious companies throughout the world.

Responsibilities:

Providing 2nd/3rd level support of all Red Hat Enterprise Linux servers across 3 data centers

Investigating and resolving Incident and Request via ServiceNow tickets

Participating in changes to the systems from a production support perspective; owning and executing major events such week-end maintenance schedules, Disaster Recovery tests etc.

Performing administration to include installs, upgrades, configuration, tuning, and monitoring of various operating system eco tools and components such as patches, new builds etc.

Working closely with senior engineers to make continuous improvement to production environments and procedures

Providing 24/7 on-call support for after-business-hours based on a weekly rotating schedule

Documenting and keeping up-to-date Standard Operation Procedures for Production

Support, as required

Building Best Practices from common production issues

Monitoring the production applications. Setup and refine monitoring alerts

Participating in our Daily Brief and production meetings

Requirements:

Good understanding of Red Hat Enterprise Linux Systems V6 to V8

Good understanding of Red Hat High-Availability Clustering (RGManager & Pacemaker)

Experience with Scripting: proficient at BASH and/or Python

Experience with operation and automation using Ansible and Ansible Tower

Experience with operation of Red Hat Satellite and servers registered with Satellite

Strong written and verbal communication skills, sharing knowledge and expertise

Strong work ethic, ability to work in fast-paced, team-oriented environment

Self-motivated and goal driven to run with individual projects to meet business needs

Strong technical attitude and a desire to learn

#LI-DL1
