

Belgium Jobs Expertini®

Team Lead (Belgium)

[Apply Now](#)

Company: Trendminer

Location: Belgium

Category: computer-and-mathematical

Your challenge

As a Team Lead you are responsible for the way of working, planning, and delivery of a cross-functional team that takes ownership of a part of the TrendMiner platform. You will work with the Team and act as a spokesperson for your team within the TrendMiner organization. You understand what agile means (and what it does not mean) and can help a team figure out what that means for them to deliver software efficiently and find happiness in their daily operations.

What you will do

You report directly to our CTO (Chief Technical Officer)

You are accountable for all planning aspects of the team and for the delivery of that team

You act as the first point of contact for all questions regarding the progress of the product landscape under your care

You define and manage the agile way of working together to help the team deliver. For example, by removing impediments, getting timely decisions, managing risks

Inspire trust in your team and in the stakeholders of the product landscape under your care

Lead and motivate team members as well as help them develop their individual talents

You should be a living embodiment of TrendMiner and Software AG values within the team

You ensure your team delivers sound technical solutions that meet both the functional as well as

the non-functional requirements

Make sure that the projects in your team have a sharp vision and technical roadmap

Create and control the architecture between different projects under the team's control

Take the lead in the integration between different projects in your team

Ensure that domain knowledge is documented and shared with the team and others

What you bring along

Minimum 2 years leadership experience within a software development environment

You come from a technical background. We want you to demonstrate affinity and a real passion for software development

People skills come naturally to you, and you are a motivated team player

Effective communication skills. This means talking, writing, and listening (not necessarily in that order)

You think in terms of solutions, never in terms of problems

You are agile, proactive, flexible and you have a hands-on personality

Fluent in English

Able to work autonomously

Do not miss the opportunity to...

Become part of a smart and ambitious team that will help you thrive

Experience the rise of a successful and fast-growing company

Join a dynamic environment with a lot to learn and do

Work in and with international teams that are focused on delivering excellent value to our customers

Work on an innovative big data analytics product

Design, implement, and test features using agile and DevOps methodologies.

What we offer

A competitive compensation package including a company car.

Flexible working hours and attention to work/life balance

Your choice of laptop (Windows, Linux, Mac)

Meal vouchers

Hospitalisation insurance (DKV)

Group insurance

Net benefits

An open-minded culture where you can 'be your best you.'

Personal Learning and Development budget and guidance

Company managed and external training opportunities

Exciting and challenging initiatives and projects and the possibility to make a real difference.

The opportunity to join a visionary technical innovator and work with state-of-the-art tools.

A great office at Corda in Hasselt

A 60% remote work policy
